HPS Loves...

The Figurae collection at James Wilson Interiors.

James Wilson Interiors has pulled off a coup by becoming the sole Scottish retailers of the Figurae range of interior furniture. Italian based Figurae works with renowned designers to produce innovative and fashionable furniture for the home. James Wilson commented, "I'm really excited to be working with Figurae and bringing the collection to Scotland. The designs are superb, fun and just a little quirky and I think our customers are going to love them."

At the heart of the collection is the Brilliant chair which certainly lives up to its name. Not only are the chairs visually striking, but they are practical too. Meanwhile, the Bloomy sofa range is perfect for those of us who like to achieve a different look every now and again. With a modular design, the elements of the couch can be moved around to create different shapes. A large selection of covers is available for the frame so your sofa won't look out of place in any living area.

Not content with bagging this exciting collection, James Wilson Interiors is expanding to include an additional store opposite the original shop.

Brilliant chairs are priced at £195. Prices for the Bloomy range start from £395 for a modular component. James Wilson Interiors, 71/73 Raeburn Place, Stockbridge, Edinburgh EH14 1JG.
